

## Duct mount temperature probe 0 to +150°C / 4 to 20mA, IP65

code: P0132

Remote transmitter with temperature sensor at 120mm stem. Outdoor, indoor use.  
Built-in temperature sensor.

### Technical data

|                        |                                        |
|------------------------|----------------------------------------|
| TEMPERATURE SENSOR     |                                        |
| Measuring range        | 0 to +150 °C                           |
| Accuracy               | ±0.4 °C                                |
| Resolution             | 0.1 °C                                 |
| GENERAL TECHNICAL DATA |                                        |
| Operating temperature  | -30 to +80 °C                          |
| Channels               | internal temperature sensor            |
| Output                 | 4-20 mA                                |
| Power                  | 9-30 Vdc, typically 24 V               |
| Protection class       | IP65                                   |
| Dimensions             | 88,5 x 94 x 160 mm; stem length 120 mm |
| Weight                 | approx. 140 g                          |
| Warranty               | 3 years                                |
